

27 - 05 - 2022

Dear all

We are glad to inform you about the latest news of AQUAHELP Foundation, the actions that we did until now on 2022 and the scheduled actions that we will make later this year.

February & March 2022

AQUAHELP Foundation was the first organisation, together with Red Cross, that was in the borders of Ukraine with Poland and gave a strong support in the war refuges from Ukraine.

We stay 30 days with full power on the areas.

We support kids ,women and old people to survive and have more hope for the future.

We enter many times inside Ukraine during the war and we rescue people from the war zone.

Our actions were published from media in all over the world and we had interviews in many TV channels, about our effective and strong impact on place.

Especially on March we were invited in the main News of TVP World , because we rescue a family with a big danger from inside Ukraine.

We provide daily fresh bread in all the spots that they welcome the Ukrainian war refugees in the borders of Ukraine - Poland.

You can click in the link above to watch related media about our actions.

March 2022

We were the only organisation that ,with the President & Members of Board of Official National Organisation of Greek Journalists, we drove on 12th of March from Poland borders to Ukraine in the city Lviv when the war was in real action to give Humanitarian Aid to the Official Journalist Organisation of Ukraine.

The materials of the help was collected by the Greek National Journalist Organisation of Athens with the support of big greek companies and we were there to support them & drive them safe in Lviv and back to Poland.

April 2022

AQUAHELP Foundation did analysis and technical control of the project of AQH Token.

After strong advices from experts , professional experienced developers, members of official developer companies , we decide to invest more time for the safety and secure of the project.

With target to repair serious gaps in security, safety and technical issues in the design of the Token , we make changes for redesigning and reschedule the official release period.

With serious decisions (changing development team , changing wallet) we tried to choose the best options of the market and make a clever idea , reality ,with best possibilities of success.

With progress in the analysis , and counting also the extremely bad global conditions, with war, food problems and still pandemic, we decide to don't accept until 30 of September 2022 new holders of AQH.

Also we are asking the already registered users,
to sent in the foundation the above details
a. printscreen of the payment in the registration
b. in which phase of ICO they register
c. First, Last name & email of registration

We are expecting to receive the info in the only official email of the coin **greencoin@aquahelp.org** latest until 30 September 2022.

New planning to release our promising coin to the markets is in the coming months.

Tokenomics of the project will be improved in safety but they will keep all the previous details of benefits for the first users.

May 2022

We cooperate with the National Telecommunication of Greece, with Ministry of Environment of Cyprus & Municipality of Dionysos City (ATTICA) and at 17th of May , World Day of Telecommunications , we clean up the symbolic Forests of the Centuries in Dionysos Region.

With so many people in the action we gave a clear message that Planet & Hymmanity must be the 1st priority in our mind .

Because pure solidarity is the only way for a better future for the world

May 2022
