

News - Actions

A. In December of 2022 we were in one of the poorest cities in Latin America , in Barranquilla of Colombia , and we gave humanitarian aid in the poor society, with main target the kids of the area.

We gave food , water , drinks & gifts - toys for the kids.

B. In 2023 we are planning to continue our humanitarian actions in all over the world.

C. In 2023 we will work with all the details of the opportunities of AQH Token Project. Unfortunately we saw during 2022 the Digital Currencies to suffer and lose the most of them more than the 70% of their value.

Even the leader of the coins , Bitcoin , on 01 January 2022 was 47.733 Dollars & now 30 December 2022 his price dropdown in 16.539 Dollars (-65,3%)

We took the correct decision to postpone launch the AQH Token in April of 2022 during this crazy down number rally in the market.

Also we can see the biggest stock markets in the world to suffer and give us the sign to be patient. (example NASDAQ - 31/12/2021__15.644 , 30/12/2022__10.359,79 -5.381,77 (-34,19%)

The continuously war in Ukraine between Russia - Ukraine & Rest of the world which started on February 2022 and still on 30 December of 2022 was a reason of big unstabilize conditions worldwide about energy, food and worldwide every country stock-market.

As result of all those super negative & unstable worldwide conditions that we analyze below , we decide to announce the launching of AQH Token in the Market of digital coins on April of 2024.

With the view in a better future and with the prospective that 2023 will be a year that will make corrections in the problems that year 2022 creates, we decide to smile and cross the fingers for a nice & promising gold April 2024 for us and our AQH Project.

Happy New Year

2023 love smiles to all you from the AQUAHELP Foundation
